

The hearty fare and friendly ambience make this café a favorite stop. It's the must-see transformation of a 19th-century stable into a fascinating café where guests dine in renovated horse stalls. Located at the end of the stable area beside Biltmore House, the café features slow-cooked rotisserie chicken, fresh salads, and irresistible desserts. Younger guests can order from a special children's menu.

*Stable Cafe menus evolve with the season and items are subject to change*
